The house reefs outside your backyard are beautiful and always available. Day or night you can dive as you please. When you aren't diving there are amazing restaurants, national parks, and all the local culture to take in.

## Some of the famous dive spots on Bonaire Include:

- **Karpata:** known for a healthy variety of soft and hard corals, Parrot fish, sea turtles, tangs, lobsters and a variety of eels. Depth here on the shallow flat reef is approximately 22 feet and slopes down to 120 feet
- **Something Special:** The diverse macro life at this site is the main attraction here. Frogfish, sea horses and an ocean more. This is one of the easiest shore entry points and another site that is beautiful day or night.
- **Hilma Hooker:** A large sunken ship just off the coast of Bonaire in nearly 100 feet of water. Covered in coral and algae and the many small fish that feed and find homes there. Typically, massive tarpon fill the belly of this old massive wreck
- **Salt Pier:** This pier is only open to dive when ships are not loading salt at this unique site. Coral grows on the massive pillars and the debris from years of work has become a home to diverse marine life. Day or night, this is unlike any other dive on Bonaire.
- **Kleine Bonaire (The forest):** The small island of Klein Bonaire is just a 10 minute boat ride and is home to some of the most pristine corals. The sandy, shallow reefs attract turtles and rays as well as a diverse variety of other marine life.
